MARSON-WILLOUGHBY.

At the home of A. C. Moore on the Hardisty Ranch near Sturgeonville, the marriage took place last Wednesday of W. H. Marson, formerly of Stafford, England, to Miss Adelaide E. Willoughby, of Newark, England. George Sharp, of Lamouraux, and Miss Jessie May, of Edmonton, assisted the contracting parties and the ceremony was performed by Rev. W. J. Condy, of the Fort. A few friends sat down with the happy couple to a rich repast and soon after departed wishing them long and happy wedded life.

TEXAS CATTLE RAISERS.

San Antonio, Texas, March 22.—With an attendance that included many prominent cattle men of Oklahoma as well as Texas the thirty-fifth annual convention of the Texas Cattle Raisers' Association met in San Antonio to-day for a three days session. Governor O. B. Colquitt and James Callan of Mead, president of the association, were the principal speakers at the initial session this morning. El Paso and Oklahoma City are applicants for the convention of the association next year.

COUNCIL HOLDS
A SHORT SESSIONWill Ask Government for More Time to
Consider Athabasca Power
Proposition

Mayor Armstrong will communicate with the Minister of the Interior by letter, asking for an extension of the period within which the city must pronounce upon the Athabasca power proposition, in order that a by-law may be submitted to the burgesses, to authorize the expenditure of the sum necessary for the construction of a plant.

According to the terms of the letter received by his worship last week, the council must pass a resolution within a month from the date of the communication, (March 3), accepting the proposition, and must submit a by-law to the burgesses within six days. The council, however, are desirous of obtaining accurate specifications upon which an estimate of the cost of a plant can be based, and submitting a by-law to the people, upon whose verdict they must decide. In order to do this it will be necessary to obtain further data from John S. Fielding, C.E., who carried out the survey of the Grand Rapids site last fall, or to obtain similar information elsewhere. Mr. Melville stated at the council meeting last evening that he understood that a report upon the cost of a plant at Grand Rapids was in the hands of Messrs. Holgate and Ross of this city, and he advised that the council endeavor to secure access to this report.

"Before the city enters upon a \$4,000,000 proposition of the kind that is now proposed, they should have the reports of 2 or 3 engineers on Athabasca power," said the alderman. "I am not certain that Mr. Fielding's estimate is a sufficiently accurate one for the city to go on in a case of this kind."

"If we hold the rights which we have obtained at Grand Rapids, we shall obtain a very valuable asset," said Ald. Lundy. "We should certainly get the city not Mr. Violette to co-operate with them in securing an extension of time within which the city must decide upon the proposition. Should the Department of the Interior refuse to grant an extension of time, the council will in all likelihood pass a resolution at the meeting of the council on Tuesday next, accepting the terms of the contract submitted to them, and submit a by-law to the people."

THE CAUSE OF COLDS

Good Advice Regarding the Prevention
of Coughs and Colds.

If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds, and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation of thirty years' cures gained through the use of this formula. We promise to make no charge for the medicine should it fail to do as we claim. We urge everybody who has need of such a medicine to try Hexall Mucus-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove the reasonableness of our claim in every particular, and we see no reason why any one should hesitate to accept our offer and try it. We have two sizes of Hexall Mucus-Tone, prices 50 cents and \$1.00. Sometimes a 50-cent bottle is sufficient to give marked relief. As a general thing the most chronic case is relieved with an average of three large bottles. You can obtain Hexall Remedies in Edmonton only at our store.—The Hexall Store, A. Archibald.

ple at the earliest possible date. Alberta Agencies, Ltd., wrote, offering 270 acres of land to the city, with good drainage facilities from the C.N.R., for \$500 per acre, for the purposes of union stock yards. They offered a sixty days' option on the property, which is the south portion of the east half of section 23, tp. 53, range 24. The communication was referred to the industrial committee. The property corners on the Swift Packing Plant.

Frontage Water Tax
Final passage was given to a by-law authorizing the levying of a 5 cent frontage tax against all property past which watermain pass.

In the case of corner lots, where the points are existing past both sides of the property, and of irregular pieces of property, the rate to be levied will be a matter for adjustment by the assessor and the commissioners.

A letter from Gen. Boulton respecting the arithmetical question had been placed in the secretary-treasurer's hands. Mr. Crosskill had commenced to read the communication before the error was discovered. The letter was referred to the industrial committee and the commissioners, to whom it should have been forwarded.

A suggestion made by Ald. Handman at the last meeting of the council, that the city should to S. W. Gandy certain property abutting on land owned by him at the foot of Nanavoy ave., in recompense for damage sustained on account of a sewer which crosses his property, was turned down on recommendation of the public works committee. It was pointed out that Mr. Gandy would demand some thirty feet of land the full width of his lot, by way of compensation. The committee felt to see in what manner the sewer installed by the city had caused damage to Mr. Gandy. It had been thought that the land Mr. Gandy desired would be but three feet in width.

Respecting the old immigration property sold to Laton and Lyons, the finance committee recommended that Mr. Lyons secure a tender from Mr. Laton for his equity, and pay interest amounting to \$385 to Jan. 2, 1911. This report was read and the city will give Mr. Lyons a title to the property and take a mortgage bearing 7 per cent. from Jan. 2, 1911, for three years, one-third to be paid with interest each year.

Steps will be taken by the solicitor to connect the existing past both sides of the property, and of irregular pieces of property, the rate to be levied will be a matter for adjustment by the assessor and the commissioners.

Andrew Herbert for the purchase by him of part of lots 38-40, block 2; and lot 12 in a report upon this matter the finance committee pointed out that Mr. Herbert is greatly in arrears with his taxes. The property is on the south side of Jasper, near to the junction with Grieson st.

"In 1908," said Ald. Melville, "Mr. Herbert commenced to build a culvert on this property, but never got any further. The site is an eyeore to everyone who goes down to the Mounted Police barracks. It has cost the city money to repair the sidewalk which is now about one-third caved in. There are judgments against Mr. Herbert and he can never redeem the property by payment of taxes."

A grant of \$200 to cover water and light rates for 1911, will be made to the Y.M.C.A. The finance committee ascertained that the value of water used amounts to about \$72 and of light \$216 per annum. Solicitor Bowen said that he understood that the institution is freed from payment of taxes by the terms of the act of incorporation.

A public meeting will be held in the council chamber this evening at 8.45 to discuss arrangements for a coronation pageant in Edmonton on June 24. The council granted the use of the city hall for the purposes of the meeting.

The resolution passed at the public meeting in Norwood on Saturday night, protesting against the re-opening of the Burns' slaughter house, was received by the council, and laid on the table for further consideration.

INDIA'S POPULATION.

Calcutta, March 22.—The final provisional census returns give the total population of India as 315,000,000. This is an increase of 50,000,000 as compared with 1901.

MR. INVESTOR—Just a few minutes' confidential talk with you. Were you ever able to buy anywhere lots within a mile of the limits of a city like Edmonton at \$90.00? If you are a person who has travelled or lived in some of our large cities you will know the way a city goes after it has reached its 30,000 mark. Previous to that it only learns to walk; afterwards it runs. The car line has been surveyed to pass this property in the near future. Now, you do not want to wait until that line has been built and the sidewalks down. If you do you will have to pay a big price for these lots. Get in before these things and get the benefit of the rise. Call in and let us tell you the special features connected with this popular subdivision. Let us drive you out; you do not have to buy.

HAULTAIN AND
MCBRIDE AS
CONSERVATIVES

A remarkable contrast in the stand taken upon the reciprocity question by the different conservative leaders is shown by the utterances of Richard McBride, premier of British Columbia and Haultain in Saskatchewan.

McBride says in effect, that reciprocity will work irreparable injury to British Columbia and that it is a menace to the whole of Canada. Haultain stands up in a liberal legislature and in the face of the fact that the motion to endorse the reciprocity arrangement is moved by his opponents in politics, votes for the motion and places himself on record as a supporter of the reciprocity.

McBride rules in a province which has everything to sell named in the reciprocity arrangement. Haultain lives in a province which has to sell only a limited number of articles mentioned in the agreement.

McBride's stand is one which admits that he fears the competition of the country to the south. Haultain's stand is one which indicates that he has sufficient faith in his adopted province to believe that it can meet the world on equal terms and ask no favors.

McBride and Haultain are both regarded as possibilities for higher things in the conservative party. McBride will reach higher office in the party before Haultain, because McBride more truly represents the conservative lack of faith and fear that the country will be robbed of its independence by opening its doors to the world.

Haultain can never expect to shine in a party of reactionaries, for his is a line of thought which does not carry out the ideas of the little Canadians.

DRAWING THE
COLOR LINE
PRETTY FINE

A great deal of unnecessary noise is being made about the immigration of a few negroes to the country west of Edmonton and much unfavorable publicity is being created by the fact that the dominion government is trying to prevent these people from coming into the country.

Without in any way undertaking to discuss the race or color question, it looks as though the danger to this country from the immigration of a handful of negroes is very much over-rated. It cannot be said that the negroes who have so far immigrated to Alberta are lacking in industry or enterprise and there is no disputing the fact that they go to work on their own homesteads in their own quiet way without imposing themselves on anyone who does not invite their society. To turn them back simply on account of their color looks like drawing the color line pretty fine.

GREAT PROMISE
IN RAILWAY
DEVELOPMENTS

The programme of development outlined by the Canadian Northern for the year 1911 promises a great deal for the city of Edmonton and for the central and northern section of the province of Alberta generally.

Upon the completion of the lines which the C. N. R. has projected for this year the map of the province will be changed so as to make the capital the hub of a radiating system of lines which will bring to Edmonton the richest trade centred on any city in the west.

Edmonton's outlook for railway construction during the current year is brighter than it has ever been before and it is brighter than that of any other city in the Dominion of Canada. If only one half the programme is carried out the radius of the city's domain will have been increased by many thousands of square miles and a greater trade will have been brought to the city than the total of that heretofore enjoyed.

JUST PARAGRAPHS

With the mud just about thick enough for the boys to play marbles, the railway contractors furlishing up the wheel scrapers and the architects burning the midnight oil over mystic red, blue and green patterns on translucent flimsy, it needs only the fuzz on the pussy willows and the arrival of a few trainloads of hardy settlers to bring along the gentle spring.

Funny, isn't it, how quickly baseball talk breaks out when the hocky gossip subsides. Now all we hear about is "Schaefer cinched," "spring training trips," and the Baxter brother's batting averages, where a week or so ago it was the Fit-Reform Cup and the controversy over amateur pros. or professional amateurs—or something like that too old to remember about.

The Journal says an appeal to the electors on the reciprocity question would be a crime. The Toronto News is canvassing the mayors of the eastern cities to get from them an expression of the opinion that the government should go to the country for a mandate to pass the reciprocity agreement. Mr. Michener of Red Deer, says the Journal is not representative of the conservative party. The only conclusion from the three opinions is that the Journal has guessed wrong again. Tuff Luck.

With the United States army camped on the Rio Grande awaiting the signal to invade Mexico and a small army of Texas negroes camped on the Canadian line awaiting to invade Alberta, it commences to look as though the immigration inspectors of two countries will be pretty busy for a few days.

The Hercules Rotary Engine Co. LIMITED

Authorized Capital \$1,000,000 = In Shares of \$100 Each

The test was adequate. The judgment was unbiased. The proof was perfect. The Hercules Engine can do all that is claimed for it, and a little more

Last night the Mayor and a number of the Aldermen, a large number of business men and many mechanical men thoroughly acquainted with the principals of power production saw the Hercules Rotary under steam at the Bulletin Office.

They saw the little model engine, not much larger than a nail keg drive the whole Bulletin Job Plant, including two Miehle presses, an Optimus, two monotypes and other pieces of machinery for

the handling of which the Bulletin has regularly in use a 30 horse power engine.

They saw this engine standing on the floor without prop, brace, bolt or spike of any kind run so smoothly that a lead pencil which stood on its end on top of the engine during the entire demonstration scarcely showed a tremor.

To make this test the model Hercules was set up under the most unfavorable circumstances. Only

a one-inch steam pipe connected the engine with the boiler, and in the pipe were many turns and elbows. At no time did the maximum steam pressure on the engine exceed 50 pounds.

The reverse movement of the engine was shown to be of such mechanical excellence that all who saw it and are at all acquainted with the difficulties which have been experienced in the mechanical world trying to furnish a proper reverse for the tur-

bine, recognized that there was in this point alone a feature of excellence which certainly is worth millions.

The test was made so absolutely in the open that the most critical could find no fault with the demonstration, and among all those who saw the little engine work last night there was none who would venture the criticism that the engine did not do a great deal more than the inventor ever claimed for it.

Now is the Time to Buy Stock in the Hercules Rotary Do Not Hesitate

It is at this age in the history of any invention that investors have an opportunity to get in on terms that will eventually provide for them enormous profits.

When the Bell telephone was perfected Professor Bell made a tour of the North American Continent in which he demonstrated the merits of his invention. People who foresaw its possibilities and purchased stock in the Bell Telephone at that time now hold securities worth \$10,000 for every dollar pur-

chased then and have meantime reaped their share of the enormous profits of the Bell.

People acquainted with the practical side of steam engineering will assure you without a moment's hesitation that an invention such as the Hercules Rotary, which is destined to revolutionize the science of steam engineering, is capable of earning millions in dividends for the stockholders. But financial men will tell you that in order to secure patents through-

out the remainder of the civilized world and to place the engine on the market it is necessary to have some money in the treasury.

That is why we are offering 250 shares of stock at par to the Edmonton public.

A large part of this stock has been already sold and the interest manifested in the engine and the demonstration assures us that the remainder will be sold in a few days, if not in a few hours.

If you want to get in on this invention in its infancy and enjoy later on the profits which will be your due you must act at once. It will be but a very short time until the allotment offered to the public is sold out, and when this is done the Company is not at all likely to offer any more for sale. It is less likely to offer any more for sale at par. Take advantage of the opportunity by acting immediately. To hesitate in this case is certainly to lose. I you want the stock you should buy at once.

See Us about this Proposition at once. It cannot cost you anything to inquire. It may be enormously to your advantage

survey in Parkdale was read three times.

Have Bought Team.
Ald. Rankin reported public works purchase of team of horses from J. J. Hucan, for \$200. Wagon, etc., bought for \$170, and harness for \$58.60. Report adopted.

He also reported that there was no written promise given Mr. Schneider by the 1910 council that the city would open and grade certain roads in North Park providing he withdrew his appeal against assessment last year.

Mr. J. Daly appeared before council where long hearings on amalgamation in which he charged the special committee from this city as being dilatory in their negotiations toward inter-city union. Mayor Davies explained that he could be nothing done until the city and both cities are completed, which will probably be this week.

Constable Resigns.
Patrolman W. J. McIntyre of the city police tendered his resignation from the force. The letter was referred to the police committee.

Ex-Chief Davidson left for Winnipeg last night on a business trip to be away for a few days.

As Quickly as Water Dissolves Sugar

About The Time It Takes For A Stuart's Dyspepsia Tablet to Work On The Food And Bring Relief.

TRIAL PACKAGE SENT FREE.
There is no long wait between the time you take a Stuart's Dyspepsia Tablet and the feeling of relief it will bring to an overburdened stomach. It acts just as quickly and easily sets things to rights in that tired, disordered stomach. It goes right at the work of dissolving the food it finds lodged there and in no time at all has things on the move—the kinks ease, the brain is worked, the appetite is coming on the tongue disappears and you are no longer conscious that you even have a stomach.

That is one of the chief recommendations for Stuart's Dyspepsia Tablets—that they don't take forever to accomplish the purpose for which you need them. It is just as if you put an extra stomach on to work when yours needed help. You can't continually overload your stomach and expect it to always smile. It is so easy to get rebellious and sickly after eating and refuse to go on being driven to do double work. You must rest it occasionally—and not starving and thereby weakening yourself physically—but by using Stuart's Dyspepsia Tablet to do the work of digesting your food.

These tablets contain all the active elements of the natural stomach juices and will alone and unaided digest food just as the stomach does. And nothing could be more harmless than these tablets. They do not affect the system in any way—do not cure any ailment except as they digest food from the stomach.

ACT WOULD BE DECLARED INEFFECTIVE

(Continued from page one)

that it was unnecessary for the funds to be placed in the provincial branch of the bank. The money was placed with the bank's head office at Montreal.

Mr. Bennett intimated that should the province win in its present appeal the bank would go right through to the private council, with the object of re-opening the case. Justice Beetz was not in for discussion, and some time after the case was closed in discussion of the manner in which the motion should be brought up, and whether Mr. Justice Beetz was entitled to sit with the court on that point at that juncture in the proceedings.

Mr. Ford's application was first, for leave to intervene on behalf of the companies, against the appeal of the province. Justice Beetz was not in for discussion, and some time after the case was closed in discussion of the manner in which the motion should be brought up, and whether Mr. Justice Beetz was entitled to sit with the court on that point at that juncture in the proceedings.

Mr. Ford: "The appeal will not come up if I succeed in this motion." Justice Stuart: "I wouldn't sit here and hear the application of the companies to intervene, before the appeal is disposed of."

Justice Beetz then withdrew. Should the appeal succeed, the companies would be left to sit upon the bench when a new motion is made by the companies. The contention of the province is that the time when the application was made before Mr. Justice Beetz, there was nothing to show that the companies wished to be joined in the action.

"There can be no harm in Mr. Ford appearing before this court," said the judge, "and the companies who withdrew, I have a right to have this appeal disposed of first. It seems that the only reason for Mr. Ford's bringing this application before the court now is to show that the companies are willing to be joined as parties to the action, and in this he has now succeeded."

SONS OF SCOTLAND CONCERT.

Black Watch Camp Sons of Scotland gave a concert before a crowded audience in the Separate School Hall last evening. Martin Johnson and other well known local performers contributing to the success of the program, in which the Scotch element predominated throughout.

Mr. Johnson maintained his reputation as an artist whose mastery of technique and brilliancy in execution have delighted Edmonton audiences since his first performance in this city. The opening trio by Schubert, played by Mr. Johnson on the violin, and Mr. Leonard, violin, and W. H. Watts, pianist, was well rendered, and called forth many expressions of approval from the audience.

Mr. Johnson's numbers were violin solo by Wiesenawski, including "Souvenir de Mendelssohn."

A sword dance and Highland reel were rendered by P. K. MacGregor, while J. H. Stinson scored a success as a camp piper.

Other features of the programme were a mixed quartette by Misses Wylie and Seymour and Messrs. Butterworth and Eaton, entitled "A Spring Song," by Sullivan rendered unaccompanied, a solo by Mr. Butterworth, vocal duet, by Miss Seymour and Mr. MacGregor, and solos by Mr. Eaton.

GOVERNMENT CONCERN.
Winnipeg, March 22.—A government concern was held this morning and it is understood that Friday will probably see the last of the session.

ALBERTA MEDICAL COUNCIL.

The voting for the officers for the medical council of Alberta, which has been going on since February 20th, closed yesterday, with Dr. Parks of Edmonton heading the poll with 30 votes. The province has been divided into seven districts, each district having one representative in the council.

The vote polled was as follows: District No. 1, Dr. Parks, 30; Dr. Braithwaite, 7; District No. 2, Dr. Grant, 10; Dr. Holton, 7; District No. 3, Dr. Field, 7; Dr. Simpson, 3; District No. 4, Dr. Brett, 7; District No. 5, Dr. Stewart, 27; Dr. McEachern, 17; District No. 6, Dr. Macdonald, 12; Dr. Kennedy, 4; District No. 7, Dr. Newburn elected.

THE WEATHER.

Winnipeg, March 22.—The weather throughout the western provinces has been generally fair and mild, though temperatures have been somewhat lower.

DYSPEPSIA Can Be Cured.

This disease is the all prevailing malady of civilized life, and one which oftenest baffles all ordinary treatment. It gives rise to a great variety of distressing symptoms, such as distress after eating, rising and souring of food, wind in the stomach, heartburn, etc.

The long train of distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Burdock Blood Bitters.

B.B.B. regulates the stomach, liver and bowels, stimulates secretion of the saliva and gastric juice to facilitate digestion, purifies the blood, and tones up the entire system.

FIGHT PROMOTER WOULD
RATHER READ THAN EATFRISCO FIGHT PROMOTER DOESN'T GO IN FOR SPORT
PAGES AT ALL, BUT PREFERS HIGH BROW LITERA-
TURE TO THE PUGILISTIC DOPE

San Francisco, Mar. 22.—It's hard to make the layman, or even a follower of the boxing game, believe a fight promoter's literary aspirations go beyond the pink sporting weeklies, but just the same Jim Coffroth, the San Francisco promoter, when not making match-ups goes in for the high brow stuff. Keats, Shelley, Balzac and Shakespeare are his favorites. Keats, parties delight him and he'd rather attend one than to see a boxing contest.

Two years ago a club sporting writer of a big New York paper was sent to interview Coffroth. Naturally, he thought that all he could get out of Jim was fight gossip. He found the promoter pouring over a little volume which he at once set down as a history of the prize ring. Imagine his surprise, however, when Jim closed the book and laid it aside, showing the title "Caesar's Appeal to the Romans."

"Somebody leave it behind!" quelled the reporter.

"No," said Coffroth. "I brought it with me. Here are a few more of the same class."

And he pulled "The Lady of the Lake," "Eugene Aram," "The Last Days of Pompeii," and a volume of Shelley's poems out of his trunk.

"Guess you thought you'd find me with a pink weekly," said Coffroth, smiling.

"I sure did," said the reporter as he started to leave. When he got back to his office he wrote the story in as a literary instead of a boxing expert, and his editor said he was a good reporter.

BENCH SHOW AT OMAHA.

Omaha, Neb., March 22.—Three hundred dogs were shown on exhibition in the Auditorium to-day at the opening of the annual kennel show of the Nebraska Kennel Club. All of the popular breeds are represented, the variety being greater than at any of the club's former exhibitions. The show will continue until the end of this week.

BOWLERS FOR OLYMPIC.

Olympics Nos. II. and III. left for Calgary this morning to take part in the provincial tournament there. A. S. Serace and A. G. Smith will captain the two teams, while Olympics No. I. are already in Calgary, having arrived there from Spokane. They are captained by Frank Simonson.

HACK WILL FORCE
GOTCH TO MEET HIMIntends Returning in the Fall to Take
on the Champion—Pete
Forsyth

Chicago, Mar. 22.—If the present plans of Jack Curley, George Hackenschmidt's manager, do not go amiss during the summer months, there will be a big match in this country next fall between the "Russian Lion" and Frank Gotch, present champion of the world, a match that will definitely and for all time settle the question of wrestling supremacy between this famous pair.

Hackenschmidt will sail for Europe from New York on March 30. This is the consummation of plans made two months ago. He will have cleaned up all his American dates by that time. Curley will follow him over two weeks later and spend the summer abroad. They will return together the latter part of August and their first act upon their arrival in New York will be to post a forfeit of \$5,000, either in New York or in Chicago, in support of a challenge to Gotch.

The failure of the "Lion" to realize his ambition in getting on with Gotch this season has only stimulated him to try again. He suggested to Gotch some time ago that they post a forfeit for a match next fall, but when it was found impossible to get the champion to agree to an early date this spring, but Gotch did not seem inclined to accept this proposition.

Will Force Champion's Hand.
Now Hackenschmidt is going to return and attempt to force Gotch's hand. The "Lion" says Gotch will have the entire summer to rest up and do some light training for the contest. He will then give him as large a side-saw as may be consistent.

The "Lion" does not think the champion has treated him fairly. He learned that Gotch had retired. The champion made his statements to this effect with great positiveness, and Hackenschmidt, respecting them, did not bother the champion with a single word, let alone a challenge.

Soon after Hackenschmidt's tour began Gotch began to get restless and before long changed his mind several times, first stating that he would wrestle again and then coming out with the statement that he would not. Finally he did take up the game and then it was that Hackenschmidt asked for a match.

Gotch framed up some impossible conditions, Hackenschmidt claims, and thus made the match impossible. He wanted to wrestle in May when he knew that Hackenschmidt had to be back home in April. Gotch also claimed "Hack" should defeat certain men another impossible condition.

Manager McGraw will not allow Hackenschmidt to pile up a record of exhibition games this spring.

Geoff Peterson says that the Boston National team has a new deal and that he has quit the game for good.

Mayor Gaynor of New York will toss out the first ball when the Giants open

SPORT CALENDAR

WEDNESDAY.

Opening of annual bench show of the Nebraska Kennel Club at Omaha.
Opening of second annual automobile show at Watertown, N. Y.
Opening of annual horse show at San Antonio, Texas.
Frankie White vs. Johnny Donovan, 10 rounds, at Port Wayne, Ind.
Johnny Goulon vs. George Kittson, 15 rounds, at Akron, O.
Gus Christie vs. Jim Perry, 6 rounds, at Pittsburg, Pa.

THURSDAY.

Annual meeting of the Ohio Automobile Association at Dayton.
Annual show of Buttery Bench Show Association opens at Grand Rapids, Mich.
Annual amateur championship of America, at clay birds at Travers Island, N. Y.
Jimmy Bonner vs. Tommy Ginty, 10 rounds, at March Chunk, Pa.
Charley Griffin vs. Bunny Ford, 10 rounds, at Watertown, Conn.

FRIDAY.

Grand National Steeplechase, handicaps, will be run at Liverpool, England.
Annual indoor conference at the meet at Northwestern University, Evanston, Ill.

SATURDAY.

Annual indoor track meet of the Kansas City A. C., Kansas City, Mo.
Preliminaries of the intercollegiate fencing championships at New York.
Close of the racing season at Tampa, Fla.
Intercollegiate wrestling championships at Princeton, N. J.
Cornell-Michigan dual athletic meet at Ann Arbor, Mich.
A. A. U. 100-yard swimming championship at New York A. C.
Opening of fourth annual Boat and Sportsman's Show at Buffalo.
Opening of fifth annual show of Pittsburgh Automobile Dealers' Association.

WITH THE BOXERS.

Frankie Burns, the Oakland, Cal., lightweight, is the latest sensation on the Pacific Coast.
In a little more than a year "One Round" Hogan has had 39 battles in 21 of which he earned knockouts.
"When Lunford meets McVey he is going right in to knock out the Californian-Parisian, and then for the champion, Jack Johnson," writes Manager Joe Woodman.

Hackenschmidt, however, is willing to forget all of these unpleasant things and start off next season with a big match for the title. He claims this will set at rest the oft-repeated claims of some of the same's knockers that this man or that one is being "worked up" to a championship match. It would in addition be a cash novelty and could be decided in the open air, something that Gotch all alone has been desirous to have. What reason he has not made plain.

At any rate Hackenschmidt intends to post this big forfeit as soon as he returns to his country in August or September.

BASEBALL CHIPS RIGHT OFF THE BAT

Pitcher "King" Brockwell will be given another trial with the Highlanders. Of the Cleveland squad 30 men at least 20 are more than six feet tall.

Jimmy Austin is playing third base for the St. Louis Browns and getting away with it.

It is said that Hugh Duffy has chosen Tex Jolly to play first base for the White Sox.

Manager McGraw will not allow Hackenschmidt to pile up a record of exhibition games this spring.

Geoff Peterson says that the Boston National team has a new deal and that he has quit the game for good.

Mayor Gaynor of New York will toss out the first ball when the Giants open

the season at the Polo Grounds on April 12.

If Eddie Zimmerman can keep up the good work he is doing in practice games, he will be a spangled beauty in Brooklyn this season.

Gonnie Meek has secured three of the St. Mary's (Calif.) College boys. They are Lynch, left fielder; Wallace, third baseman and Fitzsimmons, short stop.

George Van Halteren, the former Grand is seeking a job as umpire in one of the western leagues. "Rip" was an indicator man in the Coast League last season.

"Kid" Elberfeld, the Washington infielder, says that he intends to raise earnings when his ball playing days

SKI TO PRINCE RUPERT.

Capt. John Mikkilborg, the Scandinavian who purposes making the trip through the mountains to Prince Rupert on his skis, left this morning for his 600 mile journey. He will go to the end of the steel at Prairie Creek, on the G.T.P., and will there don his skis.

LOCAL Y.M.C.A. TEAM
MAKES HIGH SCOREEdmonton Competitors in Hexathlon
Contest Look Good For First Place
This Year.

Edmonton Y.M.C.A. team completed their Hexathlon contest last night, and their total of 1312 points, which is greater than that of Stratford team, winners of last year's prize, makes the team look good to win the shield this year, unless the east has developed some phenoms. In the fence vault Parney and Miller tied for first place, and the standing broad jump went to Hannam, who made a beautiful jump. John Cameron the provincial champion won the 12-lb. shot putt.

The summary of events:
60 Yards Potato Race.

1. Fred Parney—15 1-5 sec., 70 potatoes.

2. J. Bill, E. Aker and R. Engler.

Time—15 2-5 sec., 65 potatoes.

220 Yards Race.

1. Fred Parney—1.3 min., 85 potatoes.

2. Jas. Hill—1.3 4-5 min., 81 potatoes.

3. P. Hammond—1.4 min., 80 potatoes.

12 lb. Shot Putt.

1. J. Cameron—42 ft., 9 in 99 points.

2. Fred Parney—35 ft. 11 in. 72 points.

3. Lindsay—31 ft. 4 in. 53 pts.

Running High Jump.

1. R. Engler—5 ft. 8 in. 74 pts.

3. Creelock, Aker, Murdoch, and Cameron—1 ft. 10 in. 65 points.

Fence Vault.

1. Parney and L. Miller—6 ft. 2 in. 74 points.

2. Cameron, Hammond and McDonald, 6 ft. 3 in. 61 points.

Standing Broad Jump.

1. Hammond—9 ft. 7 in. 87 pts.

2. J. D. Britton—9 ft. 4 in. 81 points.

3. L. Murdoch—9 ft. 9 in. 80 pts.

CLAY BIRD CHAMPIONSHIP.

New York, March 22.—The sixth annual amateur championship of America at clay birds will be decided at Travers Island tomorrow, under the auspices of the New York Athletic Club.

The conditions call for expert traps, sixteen-yard rise, fifty-foot flight, 200 birds in strings of twenty-five. Preliminary to the main event, there are four practice matches and a 100-bird shoot to-day.

Another LOCAL PITCHER.

Deacon White has in sight another local pitcher that looks good, in the person of Crump, who once pitched for semi-pro Chicago team. He will be given an opportunity to make good. President Gray is expected to return shortly, and the fate of the training trip will be known.

If "Lefty" Craig, the Tri-State League pitcher, was sold to Indianapolis, he almost cried. He said he knew a trip on the ocean would make him sick and that he did not care to mingle with Indians.

are over. It wasn't earnings that he used to raise with the umpires.

It is likely that the Indians will have their name changed to "Giants." The average weight of Jack Dunn's team is 187 pounds per man, and twelve men are more than six feet tall.

The Pirates were working in the ball park at Hot Springs last night when House Wagner came up to the plate. House took one slant at his comrades, said "Good night," and then went fishing.

When "Lefty" Craig, the Tri-State League pitcher, was sold to Indianapolis, he almost cried. He said he knew a trip on the ocean would make him sick and that he did not care to mingle with Indians.

HARD TO GET A LINE
ON THE WRESTLERSGENERALLY BELIEVED THAT GOTCH AND HACK WILL
NEVER COME TOGETHER, ALTHOUGH LATTER IS
ANXIOUS AND FORMER SAYS HE IS WILLING

Chicago, Mar. 22.—Those who follow events in grappling usually find, when a season is about forthcoming, certain contradictions that are not easily explained away. The season of 1910-11 has not been an exception to this rule.

The chief disappointment is found in the fact that there is no longer any likelihood of a meeting between Hackenschmidt and Gotch. Those who believe they have carefully calculated just which of these two men should win, would do well if they took some of the contradictions already mentioned and let them enter into calculations. A year ago Frank Gotch won from Stanislaus Zyzco, the Polish champion, in straight falls, approximating under five minutes of actual wrestling. In fact, the first fall lasted only six and one-quarter seconds. About a month ago, their first lessons in a cooking school. Every time they mix the ingredients of a cake there isn't a bookmaker on earth who would give odds as to the outcome. The season started with fair promises, and it is terminating with as much uncertainty and with as many problems unsolved as any of San Francisco's most intricate puzzles.

Picked Him Up.

In Seattle, about two years back, while Gotch was wrestling Dr. B. P. Holter, the men had come so close to the ropes that the crowd demanded they do their grappling in the middle of the ring. Gotch grained good naturedly, and picked up Holter at arm's length and held him above his head. Turning to the referee, Frank said: "Where shall I drop him?"

During about a dozen meetings of Hackenschmidt and Holter since last fall, Holter has lasted all the way from one-half hour to an hour.

As an amateur, Holter of Minneapolis has always been considered far above Jess Westergaard of Des Moines, and only recently Charles Cutler of Chicago disposed of Ordeman in straight falls. Last November Westergaard lasted more than one hour with Hackenschmidt before the Russian Lion tossed the lowman for the first time.

In Denver, about a month ago, Westergaard again lasted about two hours before the first fall. About two hours before he took Hackenschmidt only 40 minutes to throw Cutler, although Cutler had disposed of Ordeman, who is considered to be easily the master of Westergaard.

The first time Gus Schoenlein of Baltimore (known as America), met Fred Reil of Wisconsin, Reil not only won from the Baltimore man, but put him in the hospital for a period of six weeks. During the past two months America had stayed nearly an hour with both Gotch and Hackenschmidt. Less than a month ago, in Chicago, Fred Reil and America wrestled an hour to a draw, and for two weeks following there was considerable talk for a final contest. This has suddenly been dropped, although Fred Reil went

back to his Wisconsin home to enter into active training for the match. These are only a few of the contradictions that stand out for the thought and consideration of American mat fans. Just why wrestlers should so suddenly and absolutely change something that is rather difficult to answer. Hackenschmidt throws a fellow in his time, and Gotch requires three-quarters of an hour to toss the same man. On the other hand, Gotch will transmit a wrestler into a living rebuke in five minutes, and within two weeks the same fellow stays an hour with Hackenschmidt. It may be that the quality of breakfast food has been altered in the meantime. At any rate, we can merely state that wrestling is not a science, but has degenerated into the uncertainty that can be noted among young girls who are taking their first lessons in a cooking school. Every time they mix the ingredients of a cake there isn't a bookmaker on earth who would give odds as to the outcome. The season started with fair promises, and it is terminating with as much uncertainty and with as many problems unsolved as any of San Francisco's most intricate puzzles.

Roller a Ropemaker.

One of the other puzzles that cannot be readily solved is how Dr. B. P. Holter can break his ribs every three weeks and still remain in the running. The doctor's first rib-splinter episode that attracted attention started with his match with Gama in London, less than a year ago. Since then the number of internal injuries he has received would make him absolutely the poorest risk any casualty company would think of having. From groaning in an Omaha hospital, he suddenly blossoms out for the wind-up in Chicago next Monday. Considering the fact that he is a physician and surgeon, this probably answers the question.

Farmer Burns, 51 years of age, has been wrestling Jess Westergaard for a finish contest, with any side bet that the Des Moines man may make. There is little question that Omaha, which is now the Farmer's home, would be present with \$5,000 or \$6,000 house. However, Westergaard doesn't call for the offer. Yussif Mahmoud has had \$10,000.

NEWS OF THE CITY

Mrs. Chown and Mrs. Leroy Chown, Seventh street, will not receive this afternoon.

Mrs. John B. Gardiner and daughter 552 Victoria avenue, will receive for the first time, Friday, the 24th from four to six.

The Edmonton Irish Association will meet Thursday night at eight o'clock in the Mechanics' Hall, Third street. There will be a number of five minute speeches. The athletic association will meet immediately afterwards for the election of officers.

The last match of the season in the Gallery and Miniature Match of the 191st Regiment will be shot on Thursday evening, the 23rd inst., and Saturday afternoon and evening, the 25th inst. A full attendance of officers, non-coms. and men is requested. There will be a practice shoot on Wednesday evening, the 22nd inst., for those desiring a practice before the match.

A man named Arsene Fontaine was found by the Mounted Police on Sunday near Leduc wandering around the country behaving in a curious manner. People living near stated it was his custom to sleep out at night. He was arrested by Constable Barker, of the Edmonton detachment and brought into the city where he will be watched for insanity.

Instruction in swimming was given yesterday in the Y.M.C.A.atorium to 275 public school boys by G. H. Gossan, the Montreal expert, who has been brought to Edmonton by the Y. M. C. A. to give a course of lessons in swimming. The boys were divided into eleven squads, 25 in each, according to schools. Water wings were used by the beginners in the art. The schools which were represented yesterday were McKay Avenue, Oliver, Syndicate Avenue and Queen's Avenue.

Looks So Bright and Blossoming in Our Millinery Dept.

We are showing an assortment of Millinery Novelties that for style, quality and price cannot be equalled in this province. Everything desirable, from an artistic standpoint, can be had in varying prices to meet the demand of all

Our display of NEW YORK PATTERN HATS surpasses any previous exhibition of models shown in quality and style. The showing of TAILOR-MADE AND SEMI-DRESSED HATS will be found to contain all the latest and best ideas.
SMART TURBAN of extra quality, mohair braid, with high draped crown, trimmed with accordion plaited rosette of two shades of silk. For style and quality this hat is unequalled.
\$6.95
P.S.—WORKROOMS are now open for the season, and we are prepared to take orders. Our competent trimmers that have given such eminent satisfaction heretofore, are again with us, and with an additional staff we can guarantee a faultless and efficient service in this respect.
(Second Floor)

\$5.00 Silk Waist for \$2.95

A SPECIAL PONGEE SILK WAIST in the Gibson effect, with piping and jabot in Persian. A most practical and smart waist. This season's model. Just a little incentive to bring you to the department to see the new suits, dresses and waists, etc.
PRICE FOR ONE DAY ONLY \$2.95

The Latest Spring Models

PAQUIN AND TUXEDO COLLARS—LOVELY NEW MATERIALS
Becomingness may guide your choice. There are stern tailor-made suits, also dressy little trimmed models in many lovely styles, showing variations of blouse and short jacket effects. Just a multitude to select from, all equally correct and fashionable. Every New Shade.

Charge Accounts

Gladly opened with responsible people. Will be found an added convenience in shopping at the
Acme Company

Ask for "Art" Clothing When Looking for a Suit

Our clothing business never was so big and so satisfactory as today and all because we have the right clothes. Each season we are doubling our orders, because of the satisfied customers. These suits can be bought from stock, or made to your measure. They are made from the best all-wool Scotch and English goods. Hand finished, and well built to your figure. In fact custom made.

If when ordering a suit for any reason you are dissatisfied with your selection, even though it fits you, it can always be exchanged. To show what the "ART CLOTHES" really are we have put on twenty-five suits, regular \$25 value for \$17.50, in worsteds and tweeds. When the 25 are sold that will be all at this price.

Spring's Loveliest Suits

It is impossible to adequately describe the treat of suit beauty that will repay a visit to our parlors tomorrow. All of Dame Fashion's choicest secrets will be revealed in this special assemblage. By all means come.

New Military Braid

The latest novelty in suit and coat trimmings, THE MILITARY BRAID made in lustrous mohair. Comes from 2 to 5 inches wide. In various patterns. The latest New York models in suits and coats are trimmed in this braid. Price from

75c to \$2.00 per yard
